## To Whomsoever It May Concern

Dear Dr. Renu Suri and Ms. Kanwal Preet Kaur,

We would like to thank the S.A.F.E. team for conducting a workshop on empowering women against sexual harassment on 11 August 2015 at our office in Gurgaon.

Based on post workshop feedback, we can certainly say that the workshop was a tremendous success. All team members appreciated the objective, the content, the mix of class room sessions and outdoor physical assessment exercises, post workshop feedback reports, and bonding with the trainers.

The one day workshop successfully achieved the following objectives:

- Create awareness about specific vulnerabilities, unsafe situations, behavior pattern and body language, and forms of harassments against women
- Equip the participants with physical, emotional and spiritual skills to deal with any potential assault through
  - Improving self-esteem, image & confidence, dealing with emotions like fear and anger
  - Assertive communication & body language
  - Understanding own physical strength to choose appropriate response
  - Make men a partner in women's safety
- Introduction to Indian legal framework, rights and how to use Government provided resources like the 24\*7 women's helpline

We wish the S.A.F.E. team good luck! We are open to extending support in their endeavors of making our society, including the corporate world, a safer place for girls and women.
